Download Eastshade v1.25 DARKSiDERS for PC Windows 7/8/10/XP. Offline Setup [Direct Link] Windows.[The changes in the electric potential of the nervous tissue in front of the point of impact of electric current pulses with various duration in anesthetized rats]. In 15 anesthetized rats there was investigated dynamic changes in the electric potential of the sciatic nerve of the hind limb in the region of the point of impact of an electric current pulse of various duration (0.8, 0.4 and 0.2 ms). According to the character of changes in the electrical activity, the response of the nerve was sub-classified into two types.Q: How to combine results of different sql queries into one I need to combine results of two queries. In both of them I have to check that day is equal to current day (as in sql you can compare dates like this) and return that from first query. SELECT COUNT(id) AS count, AVG(rating) AS average, DATE(timestamp) AS date FROM reviews WHERE CAST(timestamp AS DATE) = CAST(CURDATE() AS DATE) AND isActive = 1 GROUP BY date SELECT COUNT(id) AS count, AVG(rating) AS average, DATE(timestamp) AS date FROM reviews WHERE CAST(timestamp AS DATE) = CAST(CURDATE() AS DATE) AND isActive = 1 GROUP BY date I thought to put two queries in one and left join but since I need to check on current date I'm not sure what to put in the WHERE clause. SELECT COUNT(\*) AS count, AVG(rating) AS average,

---

DATE(timestamp) AS date FROM reviews LEFT JOIN 4bc0debe42
